Fire Extinguishing for the 21st century

DON'T BE A VICTIM CATCH IT EARLY!

INTRODUCING THE

FIRE SAFETY STICK

CE BAM - PT1 - 1298

Originally developed to extinguish fires within spacecraft, Fire Safety Stick is the very latest in Fire Extinguishing technology to become available to the UK market. It's advantages over traditional extinguishers (water, foam, dry powder or CO₂) means that it is the most versatile device to effectively and quickly control small fires before they can get out of control.

Keep a Fire Safety Stick close at hand in your...

The **Fire Safety Stick** - fire extinguishing device, is a simple and easy way to ensure that you are prepared in the event of a fire in your home, vehicle, caravan or boat.

It weighs far less than a conventional fire extinguisher and can operate for much longer. And best of all, there is **NO residue** left behind after use.

Environmentally friendly and can safely be stored for easy access in an emergency. The Fire Safety Stick will help you to contain a fire, preventing it from becoming a threat to life or property. In fact, for enclosed fires (eg. within a caravan) you can activate the Fire Safety Stick, leave it inside to extinguish the fire, as you get out to safety.

Unlike other conventional extinguishers it needs no servicing, refilling, checks or maintenance and has the longest expiry date. No danger from pressurised containers which can explode or malfunction. Store the Fire Safety Stick in an easily accessible place. Strike the activator, point the nozzle at the base of the flames to smother the fire at its core. It's so easy a child could do it!

Suitable for more fire types than any other extinguishers

A Solid Materials
Plastic, Wood, Paper, Textiles

B Flammable Liquids
Oil, Petrol, Diesel, Paraffin

C Flammable Gases
Methane, Propane, Butane

D Electrical Fires
TVs, Computers, Kitchen Appliances

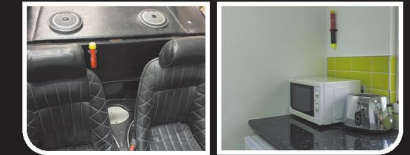

E Cooking Oils & Fats
Eg. In the kitchen

Three models Fire Safety Stick are currently available:

- 25 sec.** Emission time 170grams - 25cm x 3cm
- 50 sec.** Emission time 215grams - 26cm x 3cm
- 100 sec.** Emission time 365grams - 33cm x 4cm

EVERY F.S.S.
COMES WITH
FREE
MOUNTING
BRACKET

No other one extinguisher can claim **ALL** these:

✓ **Works on ALL MAJOR FIRE TYPES**

No dangerous gambling which type to use when every second counts! Works on **petrol, gas, plastic, electrical and even cooking oils & fat fires in the kitchen**

✓ **LIGHT & COMPACT**

Small enough to keep in your glovebox (Just 170g, 25cm x 3cm for the 25 sec. FSS)

✓ **Lasts LONGER to fight the fire**

At least **25 seconds** compared to just 12 seconds*

*FSS 25 compared with a 3.5kg powder extinguisher

✓ **Leaves NO MESS**

No residue, no damage, totally non-toxic, environmentally friendly

✓ **SAFE & EASY to use**

Easy to activate, one handed use, no harmful by-products

✓ **No Maintenance**

Requires no maintenance, service refilling or batteries, with an incredibly long expiry date (**Proven 10 years**)
